Scenario	Potential Evaluation
Cosmetic surgery claim	Potential denial - excluded service
Claim submitted after 150 days	Potential denial - timely filing
Duplicate claim submitted	Potential denial - duplicate claims prohibited
Service lacking medical necessity	Policy does not require medical necessity
Out-of-network covered service	Potential denial - out-of-network coverage unavailable

16. RAG / AI Testing Notes

This policy is designed as a synthetic knowledge source for RAG and claims-denial prediction testing. Recommended retrieval questions include: 'Is an MRI covered?', 'Does an MRI require prior authorization?', 'What is the specialist copay?', 'What is the deductible?', 'What is the out-of-network coinsurance?', 'What services are excluded?', and 'What is the claim submission deadline?' Deterministic rules can be combined with retrieved policy passages and an AI agent to explain the reason for a predicted denial.
