

# SYNTHETIC HEALTH INSURANCE POLICY

Gold Plus | Commercial Health Plan

| Policy Information | Value        |
|--------------------|--------------|
| Policy ID          | SYN-GOLD-001 |
| Plan Name          | Gold Plus    |
| Plan Type          | Commercial   |
| Policy Version     | 1.0          |
| Effective Date     | 2026-01-01   |
| Termination Date   | 2026-12-31   |
| Currency           | USD          |

## Purpose of This Document

This synthetic policy document defines benefits, member cost-sharing, eligibility requirements, provider network rules, prior authorization requirements, exclusions, and claim-processing rules for the Gold Plus Commercial Health Plan. It is intended for software development, healthcare claims processing, denial-prediction, RAG, rule-engine, and test-data scenarios. It is not an actual insurance contract.

## Important Processing Concepts

Claims should be evaluated against member eligibility, benefit coverage, network status, applicable deductible and coinsurance, prior authorization, medical necessity, exclusions, and claim-submission requirements. The values below are synthetic and should be treated as authoritative test inputs for this policy version.

### 1. Eligibility Requirements

| Requirement            | Policy Rule   |
|------------------------|---------------|
| Minimum Age            | 18 years      |
| Maximum Age            | 64 years      |
| Residency              | United States |
| Active Member Required | Yes           |

### 2. Financial Responsibilities

| Financial Item                   | In-Network / Individual or Family | Value       |
|----------------------------------|-----------------------------------|-------------|
| Individual Deductible            | Individual                        | \$1,000.00  |
| Family Deductible                | Family                            | \$2,500.00  |
| Individual Out-of-Pocket Maximum | Individual                        | \$5,000.00  |
| Family Out-of-Pocket Maximum     | Family                            | \$10,000.00 |

| Financial Item | In-Network / Individual or Family | Value |
|----------------|-----------------------------------|-------|
| Coinsurance    | In Network                        | 20%   |
| Coinsurance    | Out of Network                    | 40%   |

3. Covered Benefits

| Office Service     | Covered | Member Cost   |
|--------------------|---------|---------------|
| Primary Care Visit | Yes     | \$25.00 copay |
| Specialist Visit   | Yes     | \$50.00 copay |

| Hospitalization Rule | Value |
|----------------------|-------|
| Covered              | Yes   |
| In-Network Only      | No    |
| Coinsurance          | 20%   |
| Prior Authorization  | Yes   |

| Emergency Service | Covered | Copay    |
|-------------------|---------|----------|
| Emergency Care    | Yes     | \$100.00 |

| Diagnostic Service | Covered | Coinsurance   | Prior Authorization |
|--------------------|---------|---------------|---------------------|
| Laboratory         | Yes     | 20%           | No                  |
| X-Ray              | Yes     | 20%           | No                  |
| MRI                | Yes     | Not specified | Yes                 |
| CT Scan            | Yes     | Not specified | Yes                 |

| Preventive Care     | Covered | Member Cost |
|---------------------|---------|-------------|
| Preventive Services | Yes     | \$0.00      |

| Prescription Benefit | Covered | Member Cost   |
|----------------------|---------|---------------|
| Generic Prescription | Yes     | \$10.00 copay |
| Brand Prescription   | Yes     | \$40.00 copay |

| Maternity Services | Covered | Prior Authorization |
|--------------------|---------|---------------------|
| Maternity Care     | Yes     | Yes                 |

| Mental Health Services | Covered | Copay   |
|------------------------|---------|---------|
| Mental Health Care     | Yes     | \$30.00 |

## 4. Provider Network

| Network Rule               | Policy Requirement |
|----------------------------|--------------------|
| In-Network Providers       | Yes                |
| Out-of-Network Coverage    | Yes                |
| Out-of-Network Coinsurance | 40%                |

Out-of-network services are eligible for coverage under this synthetic plan; however, the higher out-of-network coinsurance applies. Claims processing should additionally verify provider eligibility and applicable contractual rules.

## 5. Prior Authorization Requirements

| Service / Procedure       | Prior Authorization Required |
|---------------------------|------------------------------|
| MRI                       | Yes                          |
| CT                        | Yes                          |
| Inpatient hospitalization | Yes                          |
| Major surgery             | Yes                          |
| Specialty medications     | Yes                          |

When prior authorization is required, the claim-processing workflow should verify that an applicable authorization was obtained before the service was rendered, subject to the rules of the authorization record. For testing purposes, a missing authorization can be used as a denial scenario.

## 6. Exclusions and Limitations

| Excluded Service / Circumstance               |
|-----------------------------------------------|
| Cosmetic surgery                              |
| Experimental treatment                        |
| Non-medically necessary procedures            |
| Services received from non-licensed providers |

Excluded services are not eligible for reimbursement under this policy. A claim containing an excluded service may be evaluated as a potential denial when the exclusion applies.

## 7. Claim Submission and Processing Rules

| Claim Rule                 | Requirement |
|----------------------------|-------------|
| Claim Submission Window    | 180 days    |
| Duplicate Claims Allowed   | No          |
| Medical Necessity Required | Yes         |

Claims submitted after the defined submission window may be considered untimely. Duplicate claim submissions are not allowed under this policy. Medical necessity must be established where applicable based on the clinical documentation and benefit rules.

8. Suggested Synthetic Claims Test Scenarios

| Scenario                                        | Expected Policy Evaluation                    |
|-------------------------------------------------|-----------------------------------------------|
| MRI without prior authorization                 | Potential denial – authorization required     |
| CT scan without prior authorization             | Potential denial – authorization required     |
| Inpatient hospitalization without authorization | Potential denial – authorization required     |
| Cosmetic surgery                                | Potential denial – excluded service           |
| Claim submitted after 180 days                  | Potential denial – timely filing rule         |
| Duplicate claim                                 | Potential denial – duplicates not allowed     |
| Non-medically necessary procedure               | Potential denial – medical necessity required |
| Out-of-network covered service                  | Covered subject to 40% coinsurance            |
| Preventive care                                 | Covered with \$0 member cost                  |

9. Application Testing and AI/RAG Usage Notes

This synthetic policy can be indexed into a document repository or vector database for Retrieval-Augmented Generation (RAG) testing. Individual sections can also be converted into structured rules for deterministic claim validation. Example retrieval questions include: 'Is an MRI covered?', 'Does an MRI require authorization?', 'What is the specialist copay?', 'What is the out-of-network coinsurance?', and 'How many days are allowed for claim submission?'

## Appendix A – Source Policy JSON

The following is the complete source JSON supplied for this synthetic policy. It is included to ensure traceability between the source test data and the generated policy document.
